

# Family Anime Festa 2016

**With around 2.6 times the number of visitors in 2015, visitors enjoyed an extensive lineup of popular children' s anime and a whole host of exiting activities!**

This year, we not only offered free entry for adults but also provided *Play Corners* and a *Kids Workshop Station*, welcoming 2.6 times the number of visitors in 2015.

The event offered an extensive lineup of popular children' s anime and a whole host of exciting entertainment to keep the kids amused all day.

The *Workshop Station* was extremely popular and the hands-on activities were fully booked within a few hours. The traditional "Tegaki Yuzen" handkerchief making workshop was particularly impressive, as the children could be seen with taking their handkerchief making rather seriously before revelling in their final creations.

The *Family Stage* welcomed lots of popular anime characters and hosted character shows and a quiz competition. Some of these stage events were so popular that visitors had to watch the shows standing up because the seating area was full. The children' s excitement went through the roof as the characters made their way onto the stage. Some of them even jumped for joy.

Moreover, the newly introduced Family Food Park was so popular that some of the dishes even sold out.
